

MUST to Host Inaugural Education Collaborative Career Fair

August 5, 2024 - MBARARA, UGANDA, Mbarara University of Science and Technology (MUST) is thrilled to announce its inaugural Education Collaborative Career Fair, scheduled for Wednesday, August 28, 2024, from 9:00 AM to 5:00 PM at the MUST Kihumuro main campus. This landmark event aims to connect talented students with potential employers, bridging the gap between academia and industry.

With Uganda grappling with rising unemployment rates, the career fair emerges as a timely initiative to guide students in making informed career decisions. The event will provide a platform for attendees to explore diverse career paths, network with industry experts, and secure internships or employment opportunities. “MUST is committed to nurturing well-rounded graduates who are equipped with both theoretical knowledge and practical skills,” said Dr. Casim Umba Tolo Director, PHARMBIOTRAC, MUST. “This career fair is a testament to our dedication to enhancing student employability and contributing to the nation’s economic growth.”

Key highlights of the career fair include:

- Employer Showcase: A platform for organizations to showcase their career opportunities and engage with potential candidates.

- **Networking Opportunities:** Opportunities for students to connect with industry professionals, build relationships, and gain valuable insights.
- **Career Guidance:** Expert-led sessions on resume writing, interview skills, and career planning.
- **Industry Insights:** Panel discussions and presentations by industry leaders sharing their experiences and market knowledge.

The career fair is anchored by PHARMBIOTRAC and is being held in collaboration with The Education Collaborative. The event is open to students, alumni, employers, and the general public.

UNIVERSITY BOILERPLATE

Mbarara University of Science and Technology (MUST) is an icon of Science, Technology and Innovation in Uganda. We are producing an all-rounded graduate, ready to impact and empower communities for a Sustainable Future. In contribution to community development and growth, MUST has graduated over 21,439 in the different fields of Science and Technology since her inception in 1989.
